

Convener: A/Prof. Sunetra Chowdhury
Teaching Assistant: Md Shaihan Islam

EEE4022S Final Year Project 2026

Basic Course Information

- 40 credits – 400 hrs of engagement
- 13 weeks (approximately
5 hrs/day*6 days/week*13 weeks)
- Tackle a complex engineering problem, work individually under supervision, meet 6+ GAs

Important Aspects

- Course Handout
- Graduate Attributes
- Timeline
- Ethics clearance
- Component ordering
- Assessment
- Supervision

ECSA Graduate attributes

GA 1: Problem solving

GA 4: Investigations, experiments, data analysis

GA 5: Use of engineering tools

GA 6: Professional and technical communication

GA 8: Individual working

GA 9: Independent learning

***GA 10: Professionalism**

Note: See the course handout for the GAs

Complex engineering problem (one or more of the following required...)

- Systematic, theory-based formulation of engineering fundamentals
- Engineering specialist knowledge
- Knowledge of efficient resource use, environmental impact, whole-life cost, net zero carbon use
- knowledge of technology
- Engagement with the literature, critical thinking
- Wide-ranging and/or conflicting technical and non-technical issues
- No obvious solution and require abstract thinking
- Infrequently encountered issues
- Problems not encompassed by standards and codes of practice
- Collaboration across disciplines and stake-holder needs
- High-level problems with sub-problems that may require a systems approach

Timeline

Week	Date		Task
1	27 – 31 Jul	30 Jul	Lectures start. Topics Final. Introductory Lecture on 30 July, Menzies 9, 13h00-14h00
2	3 - 7 Aug		Students to prepare ethics forms.
3	10 - 14 Aug	13 Aug	Ethics forms due – 13 Aug, 23h59
4-6	17 Aug - 4 Sep		Students to maintain GA forms
VAC	7 - 11 Sep	Mid-semester break	
7	14 - 18 Sep	17 Sep	Students to maintain GA forms. Lecture 2 on 17 Sep, Menzies 9, 13h00-14h00
8	21 - 25 Sep	25 Sep	GA Tracking Forms due - 25 Sep, 23h59PM
9	28 Sep - 2 Oct	2 Oct	DP list published
10	5 - 9 Oct	6 Oct	Pre-submission of project report opens, remains open till 26 Oct.
11-12	12 - 23 Oct		
13	26 - 30 Oct	27 Oct	Final Project Report submission on Amathuba - 27 Oct, 23h59PM
14-15	2 - 13 Nov		Marking period
16	16 – 20 Nov	16-19 Nov	Oral and poster presentation – 16, 17, 18 Nov; Open Day – 19 Nov

Ethics clearance:

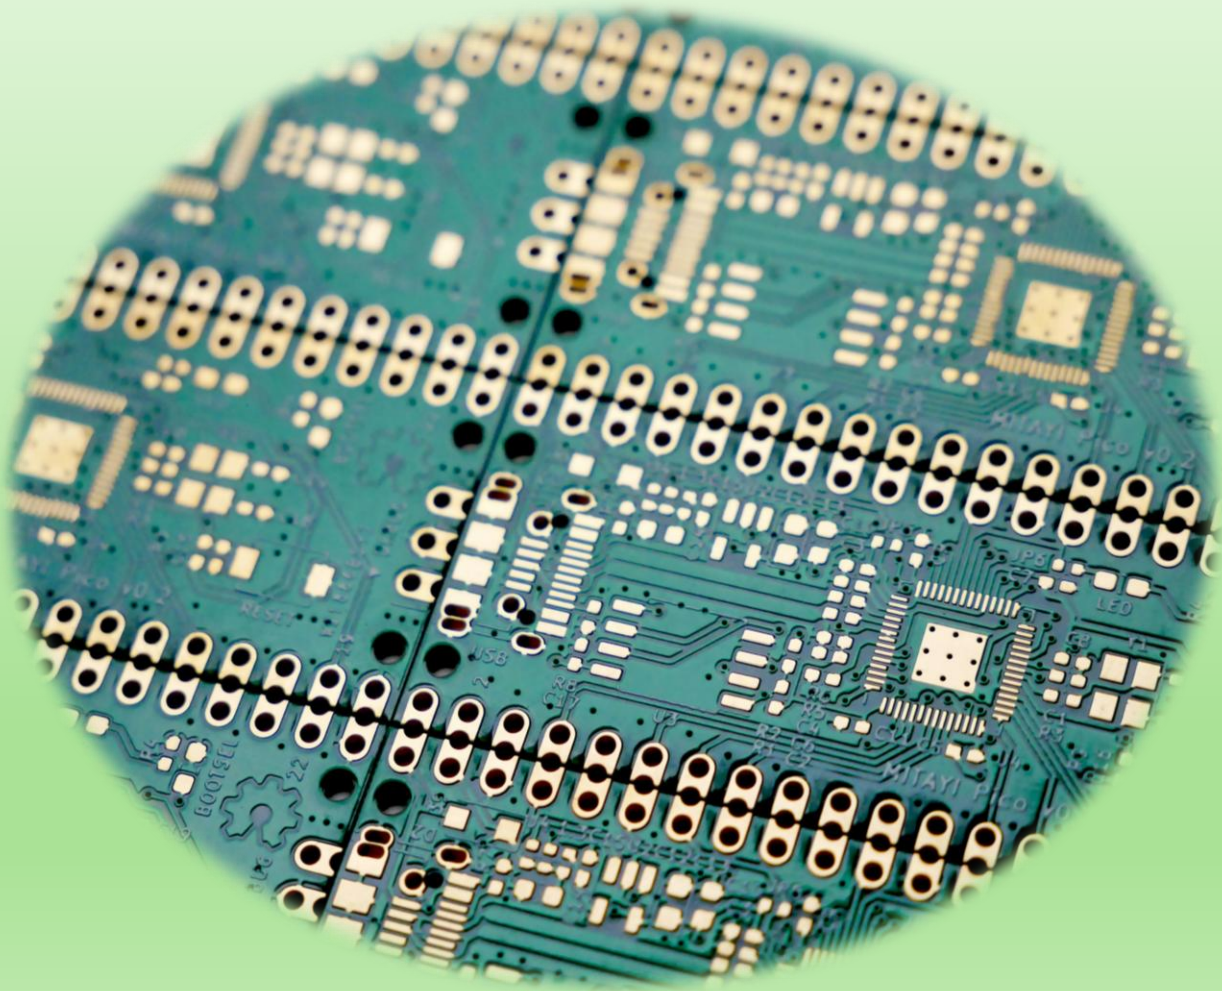

Dr Paul Amayo (PSQ Reviewer)

Dr Ekaterina Rzyankina (Full Ethics Reviewer)

- First deadline: evidence of PSQ - **13 August!**
- **No research till you have clearance**
- See the information on Amathuba under Milestones>>Ethics Clearance

Component ordering – Justin Pead

- Check what is available
- Ordering takes time!
- Budget
- How to...
- https://docs.google.com/document/d/1tp_YYqvUUViPUb_ZTzGNi4BVfWNqkrOlXcdM63DAwWY/edit

Component ordering – Points to Note

- Ensure that the link you submit is correct and directs you to the exact item you wish to order.
- Before submitting your request, make sure the item is in stock and that the required quantity is available.
- Students can track the status of their orders using the ordering spreadsheet.
- Once the order status has been updated to "Complete Delivery," the items can be collected from Brendon in the White Lab.
- Please note that we place bulk orders. If only one student requests an item from a particular vendor, the order may be placed on hold until additional orders are received.
- If an item is required urgently, students should let Natasha know so that she can advise them on the expected lead time.

Assessment

- **DP requirements:** Meetings with supervisor to discuss progress towards satisfying the Gas, signed and completed GA tracking form, oral & poster presentation, participation in Open Day
- **Course Mark:** 90% Report mark + 10% Oral mark
- **GAs assessed in report:** 2 markers, external moderation. Any GA failed = course failed, report mark < 50% = course failed
- **Late submission:** 1 day late -5%, 2 days late -15%, no marking after 48h (2 days) late

Assessment

Project Format and length:

- Single column format
- Font type – **Times New Roman**
- Font size – **11**
- Line spacing - **single line space**
- Maximum number of content pages for the report should be **50**, i.e. excluding Table of Contents, Appendix, References. Severe penalties for overly long reports, including outright failure.
- Stipulate number of words of the body of your report under your Plagiarism declaration.
- GA Appendix: As part of your project report, all students are required to include an appendix that sets out a description of how each of the six Graduate Attributes were met. This description needs to be specific to your particular project.

What's next?

- Regular contact with supervisors – contact me early if there are concerns
- Establish common ground and objectives
- *Schedule regular meetings*
- *Order components early!*
- Understand ECSA GAs relative to your topic – See Course Handout
- Ensure that supervisor endorses your direction of work
- Keep an eye on announcements and schedule of events
- *Start writing your report EARLY*
- *MANAGE your time – it is too late to start the project after the Vac*
